The screenshot shows the Quench website's landing page for Reverse Osmosis Water Filters. The page has a dark blue header with the Quench logo and navigation links: "Speak to a Quench Water Expert Now", "800-678-6633", "Why Quench", "Products", and a green "Get A Free Estimate" button. The main content area features a large image of a water dispenser with the text "Reverse Osmosis Water Filters With Superior Filtration" and "We provide drinking water your workforce and customers can trust." To the right is a "Get A Free Estimate" form with fields for Name, Company, Email, Phone, Address, and a green "Submit" button. Below this is a section titled "Our Range of Reverse Osmosis Products" with a descriptive paragraph and four product categories: Countertop Water Dispensers, Freestanding Water Dispensers, Under-Sink Water Purifiers, and Blended RO Water Filtration Systems. Each category includes an image and a brief description. The bottom section, "The Quench Difference", highlights three key features: Advanced Purification, NSF Certified, and Over 260k Water Quality Tests Annually, each with a corresponding icon and a brief description.

Our Range of Reverse Osmosis Products

Quench reverse osmosis (RO) systems deliver pure water devoid of dissolved solids and pollutants like pesticides, nitrates, fluoride, and 99% of lead. Explore our line of countertop units, freestanding units, under-sink, under-counter units, and more.

Countertop Water Dispensers

The ideal to keep clean water always handy for drinking water that's safe from harmful bacteria.

Freestanding Water Dispensers

Go from a large commercial purifier your drinking water that's safe from harmful bacteria.

Under-Sink Water Purifiers

Remove particles almost 100% from your drinking water.

Blended RO Water Filtration Systems

Minimize without equipment operation or water conditions with up to 100 ppm.

The Quench Difference

Experience the benefits of Quench. It's more than Blended RO water.

Advanced Purification

A reverse osmosis water purifier that is temperature resistant. It removes unwanted particles.

NSF Certified

Our commercial reverse osmosis water filters have been tested, tested, and approved by NSF.

Over 260k Water Quality Tests Annually

Quench products have been tested over 260,000 water quality tests per year.
